

# Harmony Township Residents

## WOODLAND ROAD UPDATE

The Board of Commissioners of Harmony Township would like to provide you with an update. As of April 15<sup>th</sup>, both engineering firms for the township and municipal authority have been out to evaluate the slide on Woodland Rd. We have been advised that we need to shut the road down to ensure the residents' safety. We will be closing the road until further notice on April 16, 2024, at 3pm.

We understand that this is an inconvenience and want to assure you that we are doing everything possible to speed up the process to fix the road. Unfortunately, both firms believe that the road is a 100% loss and will get worse. We have a geotechnical engineer coming out to the site this week to take core samples to better evaluate the slide and try to get a better understanding of the cause. Once the engineer's findings are brought to the township both firms will then collaborate to move forward and fix the road.

We will have the access road open at the end of Sylvan Road as of 3pm April 16<sup>th</sup>, this is **TOMORROW**. Please be careful riding that road as there are golfers very close to the access point. You will also notice that there are traffic signals. To ensure safety on the access road, please make sure you pull your car to the front of the signal so it can change the other end from red to green and visa versa. The lights are programmed to only allow 1 person on the road at a time as it is not wide enough for 2. **Please do not drive faster than 10 miles per hour on the road.**

We will be declaring a state of emergency for the Township on April 16<sup>th</sup>, please be advised that the county and state will be contacted to help us resolve the many issues that the intense rain has caused the township. We have slides in multiple places and are working diligently to find a resolution.

If you have any questions, please contact the township building and in case of any emergencies please call 911.

Thank you,

Harmony Township Board of Commissioners
